## Boston Mayor

If elected, would you...

support diverting funding from police to an unarmed crisis response unit?

support removing police officers from schools and hiring more counselors?

support non-citizen voting in municipal elections?

require developers to provide jobs starting at \$22/hour, 75% full time benefitted positions and stable shifts, & 50% going to Boston residents, people of color, and women?

If the statewide ban on rent control were lifted, would you support implementing rent control in your city?
